

## Technical Data Sheet

# Oil 6316

### Product Review

OIL 6316 is a natural oil self-emulsifying in water.

### Product Characteristics

Physical state	Opalescent yellow liquid
pH ( solute. 1:10)	6,5 – 8,5
Active Substance	100 %
Light Fastness	Good
Charge	Not Ionic

### Benefits & Application

OIL 6316 is used in basecoats as softener on all types of leather or together with waxes to obtain burnishing effect. It is compatible either with anionic or cationic systems and is an excellent plasticizer for protein binder without affecting brightnees and glazable power.

### Handling & Storage

24 months if stored between 5° - 35°C.
