

Technical Data Sheet

Oil 6321

Product Review

OIL 6321 is a mixture of esterified natural fat acids.

Product Characteristics

Physical state	Viscous clear liquid
pH (solute. 1:10)	N.A.
Active Substance	100 %
Light Fastness	Good
Charge	N.A

Benefits & Application

OIL 6321 is to be used alone or together with solvent waxes to obtain pull up effects on fullgrain or buffed skins, nubuck or splits.

It gives an excellent feel and does not darken colours.

OIL 6321 owns excellent compatibility with metalcomplex dyestuffs for finishing.

After application it increases resistance to water penetration into the leather.

Handling & Storage

12 months if stored between 5° - 35°C.
