

Technical Data Sheet

Pelmatol LNO

Lanolin based fatliquor

Product Review

PELMATOL LNO is a fat-liquor with excellent softening power.

Product Characteristics

Physical state	Light brown paste
pH (solute. 1:10)	6,5 - 7,5
Active Substance	35 % ±2

Benefits & Application

PELMATOL LNO penetrates uniformly into the leather giving a pleasant handle avoiding the excess of grease on the surface.

PELMATOL LNO is suitable in producing nubuck and suede, imparting writing effect. Its lightfastness is good and can be used in pale coloured leather.

PELMATOL LNO can be used in pre-fatliquoring or main fatliquoring in combination with raw oils or any other fatliquor combination. PELMATOL LNO is suitable for shoe upper leather; as well as garment and upholstery leather. The use of PELMATOL LNO can reduce water absorption of the grain. The percentage of use may vary to 2 - 6%.

Handling & Storage

12 months if stored between 5° - 35°C

Our recommendations are based on according to our experiences and observations. The customer should perform his own tests in order to determine the suitability of the products for their production routine. As İLİKEM KİMYA can not control the conditions of usage of the products in tannery, the consequences comes within the customers responsibility.
