

Technical Data Sheet

Pelmatol WRP

Synthetic emulsified oils

Product Review

PELMATOL WRP is a synthetic based fatliquor.

Product Characteristics

Physical state	White paste
pH in 10% aqueous sol.	7,0 ± 2

Benefits & Application

PELMATOL WRP can be applied to soften all kinds of leathers. Beside its tremendous softening power provides fullness, roundness and water repellency to the leather.

The main use of PELMATOL WRP is in pre-fatliquoring and fatliquoring of garment and upholstery. It can also be used to increase water resistance a specially when fixed with acids or mineral salts.

Handling & Storage

12 month if stored between 5° - 35°C

Our recommendations are based on according to our experiences and observations. The customer should perform his own tests in order to determine the suitability of the products for their production routine. As İLİKEM KİMYA can not control the conditions of usage of the products in tannery, the consequences comes within the customers responsibility.
