

Technical Data Sheet

Pelmolin KOM 7

Emulsified oil in water

Product Review

PELMOLIN KOM-7 is a special fatliquor blend for extremely soft and lightweight leathers.

Product Characteristics

Physical state	Light yellow liquid
pH (solute. 1:10)	7,5
Active Substance	45 % ± 2

Benefits & Application

PELMOLIN KOM-7 gives an exceptional deep inner softness with a fluffy fullness and a lightweight handle.

PELMOLIN KOM-7 provides an even and pronounced milling pattern to the leather.

PELMOLIN KOM-7 can be used as a single fatliquor for garment or upholstery leathers. In combination with PELMOLIN FE, PELMATOL WRP and PELMATOL B 220 leathers can be produced with special requirements. PELMOLIN KOM-7 is used in quantities of 1-3% in milling nappas.

Stir before use.

Handling & Storage

12 months if stored between 5° - 35°C

Our recommendations are based on according to our experiences and observations. The customer should perform his own tests in order to determine the suitability of the products for their production routine. As İLİKEM KİMYA can not control the conditions of usage of the products in tannery, the consequences comes within the customers responsibility.
